### The M 22.8 display stand for mobile presenting and communicating

In the corporate world, mobility and flexibility are often used keywords, but now they can also be experienced hands on by using the M 22.8, the newest development by Schneeberg:

Presentations in front of small groups do not only become an experience, they are also more mobile, ergonomic and user friendly. Only someone who stays flexible is someone who stays ahead of technical development!

True greatness cannot be measured with size - but we go for an ergonomic design and score with an easy to use height adjustment: the height of the M 22.8 can be adjusted electronically in a range of 50cm.

Screens of up to 130kg can be used satisfactorily with this device, which allows for a comfortable work experience.

### Integrated Smartphone – charging station

The smallest things can make a real difference: The built in charging station in the front section of the M 22.8 allows for simultaneous charging of up to four phones.

### Mobility thanks to trustworthy wheels

The wheel system can deal with heavy loads and ensures that you are not restricted to one location for your presentations! (Who amongst us hasn't moved around all their furniture at home, thereby creating a whole new feeling?)

### Choose your favourite colour

In addition to the innovative design and usage of up-to-date techniques the personal taste of our customers is of the highest importance.

The M 22.8 is available in a wide range of colour schemes. This allows for best integration into existing office rooms – or adding a visual highlight through contrasting colours.

All current RAL colours are available for no extra costs, and we will also try and cater for any special requests.

### Value for money

- Electronically adjustable for height
- Branding
- Ability to choose a colour scheme
- Integrated smartphone charging station
- Mobile (2 wheels with brakes)

### Europe Package

Ordering three or more of the M 22.8 will save you 10% of the price and delivery costs. We are happy to deliver and install the M 22.8 in your office!
